DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of claims 4-11 in Paper No. 3 received May 6, 2003 is acknowledged. It is noted that Applicant cancelled claims 1-12 from Paper No. 3.

Specification

2. The disclosure is objected to because of the following informalities:

Pages 2 and 3 are not complete. Each application listed must include the appropriate serial filing number and jurisdiction filed therein.

Page 16, line 15, "PCM" is not defined.

Page 27, lines 14-15, "builds an implied page based upon on of several different user created GUI screen pages" is not clear.

Page 28, line 23, "Each" should be – each –.

Page 29, line 24, "SERVER" should not all be in upper case.

Page 30, lines 5, 12, 13, "504" is not clear what it is in reference to, the "server" or "terminal".

The specification, pages 29-31, does not describe “A, B1, B2, C1, C2” in relationship to FIGURE 5.

The specification, pages 31-34, does not describe “CO 1 CO 5” in relationship to FIGURE 6.

Page 43, line 22, “T1 or T3” is not defined.

Appropriate correction is required. No new matter may be entered. Applicant is encouraged not to file a substitute specification to address these issues.

Drawings

3. The drawings are objected to under 37 CFR 1.83(a) because they fail to show the correct numbers in FIGURE 4 as described in the specification, pages 28-29. Fig. 16 should include the term “SERVER” with the element identified as 1604. Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 4-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 4, line 9, the acronym "ID" is not clear.

Claims 4, line the phrase "in a specified manner" is not clear.

Claim 8, line 2, the acronym "GUP" is not clear.

Claim 9, lines 4, 7, 10, the acronyms "ID" and "GUI" are not clear.

Claim 9, lines 10, 11, the phrase "to request additional information accordingly" is not clear.

Claim 10, lines 1, 2, the acronym "GUI" is not clear.

Claim 11, lines 1, 3, the acronyms "TKET" and "GUI" are not clear.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3627

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 4-11, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Webster et al., US 5,898,431.

Webster discloses a computer system for transfer of data contained in a database comprising, a graphical user interface (GUI) 200, 232, a user terminal 160, servers 110, 120, wireless protocol medium 191 and e-mail 324.

Webster does not appear to explicitly detail time keeping and expense data in an account in a specified manner in its database. To support a subsequent generation of time keeping and expense reports for the computer system of Webster would have been obvious to one of ordinary skill in the art. Doing such would incorporate well known document storage and retrieval means.

8. Further pertinent references of interest are listed on the attached PTO-892.

37 CFR § 1.105

9. Applicant and the assignee of this application are required under 37 CFR 1.105 to provide the following information that the examiner has determined is reasonably necessary to the examination of this application.

Art Unit: 3627

A. Information regarding the technical information, e.g. GUI screen display, user ID, and generation of reports regarding the web pages for the time keeping apparatus of “journyx.com” that predate Applicant’s filing of the present application.

B. The sales promotional materials or correspondence associated with the first offer to sell the time keeping and expense entry server.

C. Any user manuals, automation guides, sales presentation materials, or product descriptions of ad serving technology offered for sale or sold more than one year prior to the filing date of the present application.

The fee and certification requirements of 37 C.F.R. § 1.97 are waived for those documents submitted in reply to this requirement. This waiver extends only to those documents within the scope of this requirement under 37 C.F.R. § 1.105 that are included in the applicant’s first complete communication responding to this requirement. Any supplemental replies subsequent to the first communication responding to this requirement and any information disclosures beyond the scope of this requirement under 37 C.F.R. § 1.105 are subject to the fee and certification requirements of 37 C.F.R. § 1.97.

The applicant is reminded that the reply to this requirement must be made with candor and good faith under 37 CFR 1.56. Where the applicant does not have or cannot readily obtain an item of required information, a statement that the item is unknown or cannot be readily obtained will be accepted as a complete response to the requirement for that item.

This requirement is an attachment of the enclosed Office action. A complete response to the enclosed Office action must include a complete response to this requirement. The time period for reply to this requirement coincides with the time period for reply to the enclosed Office action, which is 3 months.
